Can you crack the Capone case?

During Prohibition, a Chicago "businessman" built the barn at Lake Williamson and used it to supply alcohol to notorious gangster, Al Capone. Local legend claims Capone would hide his car in the barn when visiting. *But what else did he hide there?*

Your team of Treasury Agents has been handpicked by Elliot Ness himself to search Capone's office and find the ledger that will convict Capone of tax evasion. You have one hour to crack the safe and get out...or wind up sleeping with the fishes.
